## THREATS OF DEATH.

For Informers Who, It Is Alleged, Betrayed Companions.

A dispatch from Memphis, Minn., says: Threats of death for the men who betrayed their companions and permitted detectives to lay a trap for them at Pupok, when three robbers were captured while attempting to rob the postoffice safe, were received by D. T. Dumas, mayor of Cass Lake, with being a member of the robber gang, and with having planned many other similar crimes. Detectives in search of "Mike" Davis, who, although wounded in the fight at Pupok, escaped, have found evidence that a third man was hiding in the woods with a horse and buggy, and that the robbers escaped in this manner. At Cass Lake this afternoon it was found that a safe which the detectives asserted contained nitroglycerin, and burglars' tools was shipped on the day of the Dumas arrest to a known but unnamed destination, and it is to be traced and opened. Dr. Dumas returned to Cass Lake to attend his patients and to look after his duties as mayor.

## "TRUST BUSTING" COSTLY.

\$845,140 Is Paid to Special Attorneys in Two Years.

"Trust busting" cost the government \$845,140 in disbursements to special attorneys to the attorney general and to district attorneys between March 5, 1909, and May 31, 1911, according to a report which the department of justice has transmitted. Chairman Beall, of the house committee on expenditures in that department. The largest individual disbursement was to Henry L. Stinson, at present

secretary of war, who received \$83,320 for his services in the sugar fraud prosecution. Others who received large special fees were Frank K. Kellogg, \$48,917, in the Union Pacific and Standard Oil cases; J. C. McReynolds, \$35,516, in antitrust cases especially the tobacco cases; C. A. Severance, Kellogg's partner, \$28,237, in antitrust cases; Winfred T. Denison, \$25,025, in the sugar fraud cases; D. B. Townsend, \$24,018.32, in the land fraud cases.

**GENERAL NEWS.** Four hundred and forty-one square feet of strawberry shortcake furnished the piece de resistance at the Sunday dinner for inmates of the Marion, Ohio, state hospital. The bakers at the institution assert the cake is the biggest one on record. It was twenty-one feet square and made up of two layers, for which several hundred pounds of flour were required, and between them five quarts of berries, picked in the hospital garden, were placed. Seven men were required to convey this great delicacy to the dining room table, where 1,800 patients dined on it with fifty gallons of milk.

James B. Hammond, millionaire inventor, hopes to escape business cares for the remainder of his life by sailing from New York on July 1 on a cruise that is planned to last twenty-eight years, or until he is 100 years old. Despite his 72 years, Mr. Hammond visits the ship yards daily and is personally in charge of the preparation for the trip, which is to be made in a new yacht, the *Lounger II*, which he designed himself and intends to present after his death to the Smithsonian institution as a model of marine architecture.

Three charred volumes of the revolutionary records of South Carolina which escaped the capitol fire at Albany, N. Y., were received at Columbia, S. C., by the South Carolina Historical commission. The records, which comprise three volumes of the minutes of the commission in charge of the navy of South Carolina during the revolution, were returned under a special act of the New York legislature. Three boys were buried to death when the livery stable of Vance Jewett, of Sagamore, near Kittanning, Pa., was destroyed by fire. The dead are: Earl Jewett, aged 12; Jesse Jewett, aged 10, and Hugh Flanigan, aged 14, a companion of the Jewett boys. The lads spent Saturday night in Pittsburgh. Returning home late, they slept in the livery stable.

Fire, believed to have been of incendiary origin, destroyed a block of buildings in Hazelton, Pa., causing \$125,000 loss. The flames originated in the livery and boarding stable of J. Elmer Bitler. The paint shop of the Western Bros. carriage works and four dwellings were also destroyed.

A Cleveland, O., dispatch says: The disappearance of the desperadoes of Homer W. Messenger, a trustee of the National Order of Railway Mail Clerks, who left home to go fishing, was partly cleared up when his body was found in Rocky river. Messenger was alone on the fishing trip, and how he was drowned remains unexplained. Roy Roberts, an electrician, of Birmingham, Ala., was drowned in the Tennessee river at Hale's bar when the craft capsized. Roberts sank and did not come to the surface. His body was found an hour later. The other man, whose name could not be learned, swam to shore.

## OHIO BRIBERY TRIALS.

Legislative Craft Probe to Be Again Pushed in Columbus Courts.

The second bribery trial scandal resulting from the investigation of alleged grafting in the state legislature began at Columbus, Ohio, before Judge E. B. Kinkaid, in common pleas court, with the examination of veniremen to secure a jury to try Roger Diehl, sergeant-at-arms, accused of aiding the soliciting of a bribe from Detective Burns.

Diehl was jointly indicted with Senator James R. Andrews, whose trial will follow. The biggest fight in the case is expected to come when the defense and state clash over the admissibility of the "dictagraph" evidence. Prosecutors Attorney E. C. Turner expects to ask that the jury be sequestered together near the court house during the trial instead of being permitted to go home each night. Attorney General Hogan will assist prosecuting Attorney Turner in handling the case for the state.

The first trial, that of State Representative George B. Nye, of Pike county, resulted in Nye's acquittal.

## ROYAL BANQUET AT BUCKINGHAM PALACE

\$15,000,000 In Gold Plate on the Tables.

## GRAND SHAKESPEARIAN BALL

English People Are Spending Money Lavishly in the Crowning of King George and Queen Mary.

A London dispatch says: The most regal banquet place of king or emperor ever witnessed and a gorgeous Shakespearian ball tonight under the auspices of noted society leaders stand forth as shining features of the second day of coronation week. The banquet in Buckingham palace tonight was a scene of imperial grandeur, so far as the assembly of royal and eminent personages, the setting of costly magnificence and the beautiful decorations could combine to make it.

The king and queen entertained the visiting and English royalty, all the special foreign delegations, the foreign ambassadors and ministers, the officers of state and the household, the members of the cabinet and members of the cabinet, the heads of the church and judiciary and of the army and navy.

The two largest apartments in the palace, the ball room and the picture gallery, which adjoin, were utilized as a banquet hall. On the tables were displayed the royal gold plate, used only on historic occasions, the cost of which is estimated at \$15,000,000, and the weight eight tons. This plate, for the most part, was collected in the reigns of the four Georges, and the principal piece is a massive peacock captured in one of the Indian wars, whose tail is studded with diamonds. Cut glass worth a fortune, ivory decanters hundreds of years old and wines dating back more than a century were on the board.

The gallery holds more than 800 pictures. The decorations of both rooms are largely gilt, and this background was embellished with banks of palms and giant lilies, white orchids, roses and ferns were stacked on the tables. Women of the guard ranged about the walls, and all the diners wore their richest uniforms, decorations, gowns and jewels.

## Pine View Pealings.

New Brockton, June 11, 1911.

I cannot "add anything to what has been said" on the road question but we have been talking the matter over and planning to work with the tools we have—not the "goose neck" hoes and "scotters" but with mules and plows. The plow may not "work" to the extent of putting good roads in all sections of the county but if the tools are bought they will be used. The present plan of working the roads might be called the "Inoperative" from the results gained. I have seen twenty men following one little mule along the road stirring a little dirt here and there and actually claiming the roads had been worked! If we would only stop such foolishness, get together and work the roads as we do our farms—with mules and plows—we could have good roads even if the commissioners do not furnish tools and machines.

One of the greatest drawbacks to farming in the south is lack of improved machinery. If we would get out the stumps and use barrows and cultivators we could make larger crops with much less labor than now use. One man here cut and shocked over ten acres of oats per day and in five days saved an oat crop he could never have saved by man power alone.

The burial of Mr. Dan Hutchison here at the family cemetery last Friday brought together an immense throng of relatives and friends to pay the last tributes of respect to the dead. Rev. D. P. Lee of Elba conducted the services. Mr. Hutchison was a man of large affairs, a citizen interested and active in public affairs and he will be greatly missed by his people.

Mr. Andrew Meads and wife of Clintonville visited the latter's brother, George Crowley, here recently.

Henry Thomas and John Quinly took advantage of the special rate to new subscribers and handed the writer their dollars on subscription. "Uncle Henry" owns a good farm here and has some of the finest corn we have seen. John believes in living at home and will soon be eating sweet potatoes and water melons out of his own patch.

Mr. D. J. McRee of Brundidge spent a few days here last week with his daughter, Mrs. Weaver. Mrs. Pink Crowley has been the guest of her mother, Mrs. Blackman several days.

Mr. Moore left last week on a visit to the big state of Texas. The popular merchant and postmaster, J. L. Brock, hid away to Pine View last Sunday with his family and spent the day at J. T. Henderson's.

The people hereabout have had some fine showers lately. We've had no drought to grumble at any way as the grass up here has a drought beaten several blocks.

Some gentlemen from somewhere and possibly somewhere else, have been engaged in the mainly and enjoyable sport of dynamiting for fish along the river. We suppose these same gentlemen will be cutting down their peach trees to get the fruit. Wont have a crop next year? Yes but darn next year's crop.

Mrs. Blum and children of Greenville, S. C., are visiting Mr. J. P. Hutchison.

## Pink Route 1.

Editor Clipper:—

I am pleased to give you another visit.

Mr. Joe Floyd is dangerously sick again.

Crops of this community are needing rain, corn especially.

Mr. O. N. Cook is visiting at Florala.

Mr. W. O. Carnley and family, Mrs. Minnie Grimes, Miss Missouri Grimes and Mrs. B. R. Ballard attended the big mason day at Leveet Saturday the 24th.

All had a good time and enjoyed an able address by Hon. J. M. Hickman, of Elba.

Mr. J. O. Carnley and wife visited their son and family Saturday night. Mrs. Minnie L. Carnley is very sick.

Well I cannot close my letter without saying something about our traveling petition, as it faced me with a cunning smile again yesterday. You presented by a married man, and a lawful voter, a man who has a family and depending wholly for their support on him.

Dear voter, we can allow for a single man on this question, for he has no little responsibilities pulling around him.

But a married man, to sign, and carry such a petition among his friends, I feel like he has not carefully considered the danger he is forcing upon his little home and good friends.

An obstinate man does not hold opinions, but they hold him; for when he is once possessed of an error, it is like a devil, only cast out with great difficulty. Whatsoever he lays hold on, like a drowning man, he never looses, though it but helps to sink him the sooner.

Narrowness of mind is the cause of obstinacy. We do not easily believe what is beyond our sight. There are few, very few, that will own themselves in a mistake. Obstinacy is a barrier to improvement. Whoever perversely resolves to adhere to plans or opinions, be they right or be they wrong, because such plans and opinions have been already adopted by them, raises an impenetrable bar to conviction and information.

To be open to conviction, speaks a wise mind, an amiable character. Human nature is so frail and so ignorant, so liable to misconception, that none but the most incorrigibly vain can pertinaciously determine to abide by self-suggested sentiments, unsanctioned by the experience or the judgement of others, as only the most incurably foolish can be satisfied with the extent of their knowledge.

The wiser we are, the more we are aware of our ignorance. Who ever resolves not to alter his measures, shuts himself out from all possibility of improvement, and must die, as he lives, ignorant, or at best but imperfectly informed.

Perhaps I am saying too much on this subject, but be not angry that you cannot make others as you wish them to be, since you cannot make yourself what you wish to be.

Remember bad money cannot circulate through the veins and arteries of trade, so our county cannot prosper on the strength of bar rooms and saloons. Oh! why should it be indulged in at all. Society was often dragged down to low standards by indulging people when this county was controlled by bar rooms, but now, thank God, we are living in a high standard of improvement and are having peace at home, and at society, so why should we, by our support, bring back that deluded, restless rector to tear down our happy castle, which we happily built

since we became boss of our county instead of saloons?

We must candidly hear all that can be said on both sides, then, and only then, can we in such bases hope to determine wisely; but we must firmly sustain our rights.

I would like to hear beat 14—yes brother P. T., give us your best. With many wishes to brother farmers, I am still, Farmer.

The first school of whales sighted off the Delaware capes in a decade was seen basking in the sunshine down there Saturday waiting for a skilful seagoneer hunter, according to passengers on the liner Seneca. Forty whales were counted by the Seneca's officers, a record for coastwise whale-seeing craft.

The steamer Ypsilanti, with General Porfirio Diaz on board, arrived at Plymouth, Eng., from Santander and proceeded for Havre. General Diaz did not land. Captain West, of the British navy, boarded the steamer when Patterson's automobile skidded and turned turtle, pinning the men underneath on the Goslen road, two miles south of Elkhart, Ind. The party was on its way to Cleveland.

A terrific typhoon devastated the coast and, according to reports received at Tokio, Japan, hundreds of fishing boats have been sunk with heavy loss of life. The storm has swept inland and is said to have destroyed several small towns. It is believed that at least 200 have been killed.

Heinrich Humfeld, a bricklayer, whose home was in Hoboken, N. J., fell off the new smokestack at the gas works at Charleston, S. C., being hurled violently head first to the ground, a distance of 70-odd feet below. Death was almost instantaneous.

Fire destroyed the sawmill, planing mill and lumber yards of the Lee Lumber Company, at Tloga, La., five miles north of Alexandria. The yards contained several million feet of lumber, which was entirely destroyed. The loss will reach \$275,000 with about \$200,000 insurance.

Dr. David Jayne Hill, who recently resigned his post as American ambassador to Germany, left for Kiel to present his letters of recall to Emperor William. Chancellor von Bethmann-Hollweg gave a dinner in honor of the retiring diplomat.

Damage estimated at \$100,000 to \$250,000 is estimated to have been caused by a severe wind, rain and electric storm at Danville, Va. The heaviest damage was to buildings in the business section. The city was isolated.

### That Etowah Pardon.

We do not believe in promiscuous pardoning. We feel sure that Gov. O'Neal has made errors in granting pardons and paroles and will make others, just like former governors. A governor has no way of knowing when he is right or wrong in making use of his power to parole or pardon. He can only do the best he can according to the lights before him.

The other day a mass meeting was held at Gadsden to condemn Gov. O'Neal for making a parole.

At the meeting some one offered to read the Governor's explanation of his action, but this was not permitted. The mass meeting did itself no credit when it refused to hear the letter of the governor.

At this distance it looks like the members of the mass meeting made a colossal blunder. It appears that its members were actuated by the same recklessness that was by the meeting attributed to the governor. It appears that the mass meeting was held to denounce the governor, whether he ought to be denounced or not.

From what appears in the papers Gov. O'Neal was justified in granting the parole. If he had not been, and had only a poor excuse for so doing, propriety and justice demanded that the excuse be heard and considered.

### Tax Increases.

So far the tax increases by Tax Commissioner J. N. Barron range from \$100 to \$85,000. If the state tax commission backs up the local commissioner, Covington county tax valuations are going to be boosted a million dollars or more. According to the state tax board, Covington county is a very rich section of the state, in fact

### there is great wealth here, so they say, and they purpose to have a showing of hands. One authority tells The Star that at least 1200 or 1500 persons are going to be called before the state board when it meets in Covington county to show cause why they should not be assessed for larger amounts.

### Boyd Elected.

Troy Messenger.

At a meeting of the Normal School Board in Montgomery yesterday, Joseph A. ### FREE FOR STOMACH AND BOWELS

We are in receipt of letters from Mrs. Eva Gaskins, 304 Madison St., Topeka, Kan., and Mr. P. H. Gavelas, Wagoner, Okla., as well as many others, telling about the wonderful results they have secured in the cure of their stomach and liver troubles by the use of Dr. Caldwell's Syrup Pepsin.

This remedy, as all readers doubtless know, has been before the public for a generation and is now being more extensively used than any other remedy for stomach, liver and bowel complaints. According to reliable testimony, it seems to be a very quick and lasting cure for constipation, indigestion and dyspepsia, liver trouble, biliousness, headaches, sour stomach, gas on the stomach, drowsiness after eating and similar disorders. It is a liquid with tonic effect, and so

mild and gentle in action that a child as well as a grown person can take it, in fact, it has no equal for children, women and old people.

It arouses the flow of gastric juice, and by a peculiar action trains the stomach and bowel muscles to again do their work naturally, and in time medicines of all kinds can be dispensed with. A free sample bottle can be had for trial by sending your address to the doctor, for in this way Mrs. Gaskins, Mr. Gavelas and many others first learned of the cure. Later, when satisfied it is the remedy you need, do as others are doing and buy it of your druggist at fifty cents and one dollar a bottle.

NO CURE, NO PAY

Chills and hot cuts for chills and malarial fevers of all kinds. Will "break your chills" and clear your system of the malarial that causes them—thus making the little stay "broken." No arsenic or other poisons; no injurious after effects; not bad to take.

As a General Tonic it will build you up and make you immune to all malarial fevers. Best tonic for children. For over forty years it has been a household remedy throughout the South. Sold by all druggists. 50 cents and \$1.00.

Train and Auto Collide.

Troy Messenger.

A very serious accident was perhaps averted last night by the fact that a freight train that had been standing still and was just beginning to move, when Dr. J. S. Board's touring car collided with the train.

The accident occurred at the Elm street crossing on the Coast Line. Both railroads cross Elm street at this point, there being a hill on each side leading to the crossing. This crossing has always been considered the most dangerous in the city, and many have been the near accidents there.

Last night about ten o'clock Dr. Board started out Elm street in his car. A freight train had stopped across the street and Dr. Board did not see it in time to stop his car on the hill. Just about the time the auto struck the cars, the latter began to move. The auto was turned almost around by the collision, smashing the left front wheel and both gas lamps, bending the fenders, fan and radiator and knocking the water cap off the radiator. A little negro boy in the car was hurled against the wind shield so hard that the lower glass was broken out of the wind shield. The negro boy received a cut on his hand but Dr. Board, who was driving the car, was not hurt.

The freight train passed on out of the city, the crew doubtless never knowing of the accident. The auto was pulled out the way of trains and was this morning carried to a garage for repairs, being considerably damaged.
